In the afternoon he trok long automobile ride the all the city Peace was really the subject of the President's speech to the vetering to night but he said that he could no mis sa opportunity to draw up analogy inexpen the contests of the post and there of the present and the near fators. Tager ing uside from their persons markened quaswar," 'n none of the adjections made by the Senate committee to the treaties could lead him to change his mind as to their desirability. That they would prove breeders of war he could not conceive that the Monroe doutrine might be held by European nation to be subject to arbitration he found was illegical and un-

made plain sho.

The President said in part; "I do not come before you in opposition to the Senate, and I do not wish to eriticke the majority of the committee that has reported an amendment. I am only anxious to promote as fuil a public discussion of the questions now arising in .69 respect to the confirmation of the treaties. In Barre became frightened by an an-All as possible because I feel confident that proaching trolley car and turning 550 a public discussion of the matter followfill ed by popular expression will aid much struck the load ambiships. The horses in the clarification of the subject in the were stopped some blocks further on

of the wisdom of the prompt ratheation of the treatles as they were signed. "I am especially anxious to emphasize the fact that I do not wish to be put in antagonism to the Senate. I amone of those who greatly admire the dan of government devised by our forefatiers in the constitution. I think that one of the

most admirable features in that framework is the Senate of the UnitedStates, with its various functions. I shuld be the last, therefore, to seek to depive the Senate of any of the powers give to it by the constitution. If after full consideration and caim discussion, the Senate shall take a different course from he one I urge, of course, like a law abidag citizen. I shall cheerfully acquiesce n their judgment.

"Those who have objected to the treaty mye first suggested that the organization of the Joint high commission with the power given to officer party to secure a reference of a controversy t it, for consideration for a year, major it a breeder of war, I confess mysef unable a follow the force of such an regument The difficulties connected with he initiaion of proceedings under an treaty. and the appointment of six cosmissionera with the expense and worry stiendant up on it, are all likely to preven an inviintion to a combercome negotiation like this when the ordinary channes of di-
